

TO TRONG HIEU

Intern Backend Developer

0344451632 tothieu160304@gmail.com Hung Ha, Thai Binh, Vietnam

OBJECTIVE

To leverage my skills in web development, specializing in back-end and front-end technologies, to contribute to innovative IT projects and grow as a professional in a dynamic tech environment.

SKILLS

Back-End	Spring Boot, TypeScript, Golang, Laravel, PostgreSQL, MySQL
Front-End	HTML, CSS, Bootstrap, Next.js
Source Control	Git, GitHub
Tools	Postman, Kafka, Docker, Elasticsearch, Redis
AI Tools	Claude Code, Antigravity, Codex

PROJECTS

Crypto Exchange

11/09/2025 – 17/02/2026 • Team Size: 1

Back-End: Golang, PostgreSQL, Redis, Kafka, gRPC

Front-End: Next.js (TypeScript)

Description:

- Crypto futures exchange (7 Golang microservices) with Next.js frontend; gRPC + Kafka for inter-service communication.
- PostgreSQL per-service, Redis cache, Elasticsearch indexer, Keycloak IAM, Prometheus/Grafana/Jaeger observability.
- Services: auth, market, trading, futures, wallet, notification, gateway. Jenkins CI/CD, Docker Compose deploy.

E-commerce Platform

21/01/2026 – 18/05/2026 • Team Size: 1

Back-End: Spring Boot, Spring Cloud (Eureka, Gateway), Docker, PostgreSQL, Redis, Kafka, Elasticsearch, gRPC

Front-End: Next.js (TypeScript)

Description:

- E-commerce platform with Spring Boot microservices (~18 services) + Next.js frontend; gRPC/REST inter-service, Kafka events.
- API Gateway + Eureka discovery; Redis cache, Elasticsearch search, PostgreSQL per-service (DB-per-service pattern).
- Services: Auth, Catalog, Cart, Order, Payment, Inventory, Search, Notification, Voucher, Flash-sale, Shipping, Review.
